

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively. I think allowing cell phone use on airplane flights is just a very bad idea!!!Not only the terrorist aspect of it, but can you imagine being on a flight and hearing the person next to you talking the entire time..no thank you.

Please leave the current rules in effect.

Sincerely,

BONNIE DERER
